

Bede

Excerpt from *A History of the English Church and People*

1. Complete the five “Reading Check” questions.
2. In the document, find the words listed below and then look them up using the textbook glossary. After you’ve familiarized yourself with the meaning of the word, look at it in context (that is, find the actual sentence in which it appears and analyze how the word is used in relation to the ideas or information being conveyed). Write a sentence or two for each word, indicating how (if at all) the meaning of the word is any different its usage by Bede. If the usage of the word seems the same as the definition, write “The usage of the word seems to be the same as the definition, because....” and then fill in the ‘because.’ DO NOT write the definition of the word.

Words: singularly, grace, profane, frivolous, secular, aspire, wrought, literally, doctrine, render, auditors, renderings, Scriptural, Incarnation, rebuked
